

# WorldCard Business Card Reader

WorldCard is a business card reader and contact management system. The accurate and efficient BCR engine allows continuous scanning and recognition of business cards. Comes with superb powerful functions such as personal calendar integration, photo and contact management, and infrared transmission, WorldCard Color optimizes the management of your business cards and streamlines the data communication between your PC and mobile devices (Palm, WinCE and various mobile phones). Its friendly user interface makes editing and data exporting an easy task. Once you give it a try, you can hardly leave it alone!
